L&T profit rises over 10%, beats Street estimates

RAJESH KURUP
Mumbai, May 10

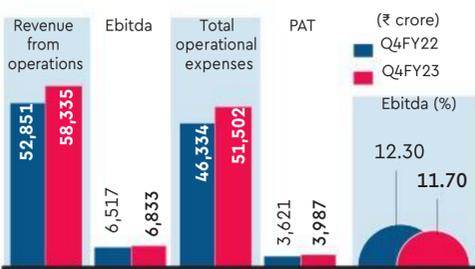

LARSEN & TOUBRO (L&T) posted a 10.11% rise in consolidated net profit at ₹3,986.78 crore for the fourth quarter ended March 31, beating Street estimates, aided by higher execution of projects and growth in IT portfolio.

The engineering and infrastructure conglomerate had posted a net profit of ₹3,620.69 crore for the same period of the previous financial year. During the reporting quarter, L&T's consolidated revenue from operations rose 10.38% to ₹58,335.15 crore from ₹52,850.67 crore recorded during the same period a year ago.

A consensus estimate of Bloomberg analysts was expecting the firm to post a consolidated net profit of ₹3,965 crore.

The Street was expecting L&T to post revenue of ₹58,907 crore and Ebitda of ₹7,147 crore. During the reporting quarter, the company posted a lower Ebitda of ₹6,833 crore, compared with ₹6,517 crore posted in the same quarter of

the previous financial year.

The company also recommended a final dividend of ₹24 per share. "With the successful merger of L&T Infotech and Mindtree, we have created a \$4 billion entity, which possesses the scalability of a tier-1 IT services institution and yet retains the agility of a next-tier company. With the conclusion of sale of the mutual fund business and a phased rundown of the wholesale loan assets portfolio, our financial services business will now fast forward its stated strategy of 'retailisation of the loan book'," L&T CEO and MD SN

Subrahmanyam said.

"We are pursuing the path of divesting our non-core assets and increasing our exposure to energy transition and tech driven businesses," he added. For the financial year ended March 31, L&T posted a net profit of ₹10,470.72 crore, a 20.77% rise (from ₹8,669.33 crore) on revenues of ₹1.83 trillion (₹1.57 trillion). For FY23, L&T's order book rose 19% on a year-on-year basis to ₹2.31 trillion, received from segments such as public spaces, hydrel & tunnels, irrigation systems and ferrous metals. The

group's consolidated order book stood at ₹4 trillion as on March 31, 2023, a 12% increase from ₹3.6 trillion recorded as of March 31, 2022.

"In FY23, the order inflow momentum was largely helped by domestic capex. Some of the orders were from the industrial sector, which indeed is the sector where the government is focusing," L&T whole-time director & CFO R Shankar Raman said. "Going forward, the pipeline that we are pursuing for FY24 continues to be robust and provides us the confidence that the order inflow momentum would continue," he added. The company's IT and ITes segment recorded customer revenues of ₹40,737 crore for the year ended March 31, 2023, a 26% growth, which reflected the demand for tech-enabled services. International billing contributed 93% of the total customer revenues, while the aggregate revenue of the two listed subsidiaries (LTI-Mindtree and L&T Technology Services) in this segment rose 16% YoY to \$5 billion.

PHARMA MAJOR DR REDDY'S Laboratories (DRL) on Wednesday reported a consolidated net profit of ₹959 crore for the fourth quarter of FY23, a multi-fold jump year-on-year from ₹87 crore a year ago, driven by growth in North America, Europe and India markets.

The consolidated revenue from operations stood at ₹6,297 crore compared to ₹5,436 crore, registering a jump of 16%.

The board of directors of the company recommended a final dividend of ₹40 per share. The dividend will be paid on or after five days from the date of declaration of the final dividend by the shareholders at the 39th annual general meeting (AGM). DRL co-chairman & MD, GV Prasad said: "FY 23 has been a year of record sales, profits and cash flow, driven by our performance in US Generics. We progressed well in our productivity and sustainability agenda. We will continue to deliver on our purpose, invest in growth drivers and promote a culture that is innovative and collaborative ensuring the future of our business."

The company said the y-o-y growth was driven by growth in North America, Europe and India markets, however, partially impacted due to a decline in revenues in emerging markets. The q-o-q decline was mainly due to decline in North America and emerging markets, partially offset by growth in Europe and India.
